

Honorable Council  
City of Newark, Ohio  
September 14, 2016

The Safety Committee met in Council Chambers on Monday, September 12, 2016 following the Street Committee with these members present:

Mark Fraizer, Chair	Curtis Johnson
Jeremy Blake	Carol Floyd
Jeff Rath	

We wish to report:

1. Amending Chapter 1860.11 Section A regarding trash pick-up times in the Downtown District due to alley and road closures was discussed.

A Representative for the owner of the McDonalds located at 21 S 3<sup>rd</sup> Street stated they are asking for a leniency on the pick-up time for trash service due to public safety issues. He asked for a time prior to 6:00 AM. He stated that they were notified by Republic, their current trash hauler that they would cancel their contract if the issue wasn't resolved.

The committee was concerned with the disturbance an earlier pick up time may cause to the residents of Candlewick Commons however not having trash service is a concern as well. The safety concerns, noise concerns and the possible variance on pick up times during McDonalds busy hours of operation will all be discussed when drafting a possible resolution. The committee agreed to review said legislation that Director Rhodes, the Law Director and McDonalds came up with as a possible resolution to this problem. The variance would only be for McDonalds, any other requests from other businesses would be addressed separately. After review if Mr. Marmie and Mrs. Floyd agree the legislation could be voted on at Monday's Council meeting September 19<sup>th</sup> by invoking Rule 11.

Mark Fraizer, Chair
