W. CHURCH ST. IMPROVEMENTS
PUBLIC OPEN HOUSE
Newark Catholic High School
Wednesday, January 19, 2022
5:00 PM – 7:00 PM

PROJECT INFO

The project location is West Church Street between North 29th Street and Dietrich Street. (Sidewalk will be extended on the north side of the road from N. 29th St. to N. 30th St.)

Construction Limits

This project will connect recently completed projects to the east and west and will provide:

- Storm sewer to convey stormwater runoff
- Curb and gutter to control stormwater runoff
- Sidewalk on both sides of the street for pedestrian safety
- New pavement with a center turn lane to improve safety for turning motorists

Other items of note:

- Sidewalks will be positioned within the existing City owned right-of-way.
- Concrete driveway aprons will be constructed for all driveways (to the back of the sidewalk).
- Yard drains will be implemented in several locations to reduce the possibility of ponding and drainage easements will be needed to allow the City to maintain them in the future.
- Temporary construction easements will be needed from all properties to properly grade the ground for runoff.
- On-street parking will no longer be permitted in order to accommodate the curb and gutter.
- W. Church St. will be closed during construction, but access to properties will be maintained to the fullest extent possible.
