

Rule 10 - METER PIT

The use of meter pits will be considered only on specific applications where they might serve in the best interest of both the consumer and the Division of Water and Wastewater. The Director of Public Service or his authorized agents must approve the use and the design of any meter pit installation. Specifications on the installation of a meter pit are available upon request at the Division of Water and Wastewater.

Drawing WS-6, SD 800-WS-8, SD 800-WS-9, SD 800-WS9A, available upon request.

Approved:

David Rhodes, Director of Public Service
